A detailed information regarding costs is provided in the Costs, Fees and Charges section of the Agreement.

14.7 Upon closing a Transaction, and subject to any applicable adjustments for interest and dividends in accordance with this Agreement:

14.7.1. The Company will pay the Client the difference between the price in which the Transaction was opened and the price in which the Transaction was closed, multiplied by the number of units of the Underlying Instrument that comprise the Transaction if the Transaction is:

- (i) a long Transaction and the Transaction's closing price is higher than its opening price; or
- (ii) a short Transaction and the Transaction's closing price is lower than its opening price; and

14.7.2 The Client will pay the Company the difference between the price in which the Transaction was opened and the price in which the Transaction was closed, multiplied by the number of units of the Underlying Instrument that comprise the Transaction if the Transaction is:

- (i) a long Transaction and the Transaction's closing price is lower than its opening price; or
- (ii) a short Transaction and the Transaction's closing price is higher than its opening price.

14.8 Rollovers and Expiration Dates

14.8.1 For certain CFDs, an expiry date may apply (Expiry Transaction). The Client acknowledges and agrees that the Company will have the right to close any Transaction and remove any pending orders, in its sole and absolute discretion without notice, if the Reference Instrument is a derivative financial instrument which may settle on expiry by a delivery other than in cash, at a reasonable period prior to the expiry date (the details of these dates are available at the Company's Website), as determined in the sole and absolute discretion of the Company (Usually on the expiry date). The Company will not be subject to any obligation to rollover any position which is subject to settlement on expiry. The price of an expiry transaction will be based on the current available market price, at the time the transaction is executed.

14.8.2 The Client acknowledges that it is the Client's responsibility to be aware in regards to CFDs expiry dates. Information regarding the expiry dates of CFDs is available on the Company's Website.

14.9 Dividends

14.9.1 In the event of a distribution of cash dividends in relation to a share CFD, a dividend adjustment will be made to the Client's Balance with respect to the underlying share's Positions held by the Client at the end

of business day which precedes the ex-dividend date. The dividend adjustment shall be calculated by the Company, based on the size of the dividend, the size of the Client's position, taxation (if applicable) and whether it is a buy or a sell Transaction, whereby in long Positions the adjustment shall be credited to the Client's Balance and in short positions the adjustment shall be debited from the Client's Balance. Dividends shall be credited or debited from the Client's Balance outside the underlying share's trading hours and before the opening of the share's next trading day, and are contingent upon the Client holding his/her respective Position at the time of the dividend adjustment. During this period, in order to keep the fair value of the Client's Equity until the opening of the next trading day, the Company shall adjust the Client's Position in accordance with the dividend amount debited or credited from the Client's Balance.

14.10 Margin Call

14.10.1 A Margin Call occurs when the Trading Account's equity is about to drop below the margin requirement needed to maintain open Transaction(s). The Margin Call for the different account types is indicated on the Company's website under Account Features as amended from time to time. If the equity-to-margin ratio shall continue to drop, a Stop-out may occur.

14.11 Stop-out

14.11.1 A stop-out occurs when the Trading's Account's equity drops below the margin requirement needed to maintain open Transaction(s). Margin Call and Stop Out vary depending on account type and are subject to change. The Stop Out Level for the different account types is indicated on the Company's website under Account Features as amended from time to time . If the equity continues to drop, reaching the equity-to-margin ratio as indicated on the Company's Website, MT5/MT4 will automatically start closing open positions (starting with those with the highest losses) to prevent zeroing out of the Trading Account. The Client should note that a Stop-out may occur even if the Trading Account is fully hedged. When an account is fully hedged, no margin requirement is needed, however the equity is affected by the floating PnL. If the spread widens, the floating PnL will increase. In this case, if floating PnL > equity, Trading Account will get stopped out.

14.12 It is the Company's policy that the Client's Equity in the Trading Account will never fall below zero. In the event that a Position is closed at such price causing the Equity to fall below zero, the Company shall waive its right to receive the balance from the Client (Negative Balance Protection).

14.13 Due to fast moving markets, all type of Orders as disclosed in the General Trading Conditions section of the Agreement will be executed at prices worse or better due to Negative or Positive Slippage, although the Company will take all reasonable steps to provide Clients the best available price. It is important to note

that Slippage does not affect the Negative Balance Protection and therefore the Client will never lose more than the amount invested (including any profit, if gained), even if a slippage occurs. In addition, transactions in some currencies (e.g. RUB) or other instruments (e.g. shares, indices) which are not traded on a 24 hours basis, may experience a Market Gap on a daily basis and are therefore more susceptible to slippage.

14.14 Market Gap

The Client understands that a Market Gap may occur due to abnormal market conditions and/or as a result of the price difference between the closing and opening price. In case of a Market Gap, the Company shall execute all pending limit or stop orders at the first available market price for the corresponding position size.

14.15 Stocks CFD – Expiration

CFDs whose Underlying Assets are Stocks are traded in conjunction with the times in which the underlying share is traded. Without derogating the provisions of the Agreement, Stock CFD Transactions may be terminated by the Company upon the occurrence of such events as: Corporate Actions, Suspension, Trading Termination, extremely low liquidity and Insolvency. In such event, the settlement price shall be the last traded price at or prior to the time of termination.

14.15.1 Corporate Actions

- i) If a corporate action materializes, the Client accepts that the Company reserves the right to make appropriate adjustments to the value and/or size of a transaction and/or number of any related transactions; any such adjustment aims in preserving the economic equivalent of the rights and obligations of both the Client and the Firm immediately prior to a corporate action. It should be noted that these adjustments are conclusive and binding upon the Client; the Client will be informed accordingly by the Company as soon as reasonably practicable.
- ii) The Client accepts that if they have any open positions that are affected by the corporate action, on the ex-dividend day the Company reserves the right to close such positions at the last price of the previous trading day and open the equivalent position at the first available price on the ex-dividend day; under the above mentioned circumstances, the Company shall inform the Client accordingly, through the internal e- mailing system, no later than the closing of the trading session prior to the ex-dividend day.
- iii) The Company bears no responsibility for notifying the Client regarding announcement of corporate actions.
- iv) A client holding a long position on the ex-dividend date will receive the applicable dividend, in the form of a cash adjustment, transferred to the relevant Trading Account. A Client holding a short position on the ex-dividend date will be charged the applicable dividend, debited from the relevant Trading's Account free equity.

In the event a Client maintains a short position on the ex-dividend date and has insufficient free equity in their Trading Account to cover the reverse cash adjustment, the Company reserves the right to close the open position. Under such circumstances, the reverse cash adjustment shall be deducted from the Trading Account's balance.

v) The Client accepts that the Company retains no requirements to notify a Client in the event that a Trading Account maintains insufficient free equity to cover a reverse cash adjustment for a short position.

vi) In the event of a stock split, the appropriate adjustment on the Client's net position shall be reflected on the Trading Account in accordance with the announced stock split.

vii) In the event of a share being de-listed, the Client's position will be closed at the last traded market price.

14.15.2 Suspension

i) If at any time trading on a relevant Financial Market or trading in a certain Underlying Asset is suspended, the Company shall suspend the trading in the CFD Transactions based on such Underlying Asset and calculate the value of the CFD with reference to the last traded price before the time of suspension, as reasonably determined by the Company. In the event that the aforesaid suspension continues for five Business Days, the Company may decide, at its sole and absolute discretion, a Closing Time and price of the relevant CFD. During the term of a CFD Transaction whose market is suspended, the Company shall have the right to terminate the CFD Transaction at its discretion, and to amend or vary the requirements.

14.15.3 Trading Termination

i) If an Underlying Asset has ceased (or will cease) to be listed, traded or publicly quoted for any reason and is not immediately re-listed, re-traded or re-quoted on the relevant Financial Market or quotation system (including in the event of any insolvency of a company whose shares constitute an Underlying Asset), the Closing Time of the relevant CFD shall be a reasonable time prior to such time in which the Underlying Asset will cease to be listed, traded or publicly quoted and the Company shall close all the relevant Transactions at the Closing Time.

14.15.4 Insolvency

i) If a company, whose shares form the CFD's Underlying Asset goes into insolvency or is otherwise dissolved, the Company shall close any open Position in the CFD and cancel all Limit Orders relevant to such Underlying Asset. The closing date shall be the date of insolvency.

15. Client Money

15.1 The Company will exercise reasonable skill, care and diligence in the selection, appointment and periodic review of the institutions where Client Money is deposited, in accordance with its legal obligations. The Company takes into account the credit rating of the institution prior to depositing Client Money with the said institution. The Company takes reasonable steps to periodically monitor the credit risk of that institution. The Company may use multiple institutions to ensure diversification and allocate internal percentage limits for each institution. It should be noted, that segregated accounts(s) will be established, maintained, and operated according to the applicable rules and regulations.

15.2 The Client acknowledges and agrees that unless otherwise agreed in writing, any assets in the Client's Account shall be held in an account or accounts maintained by, and in the name of, the Company and at the Bank account/s of the Company's choice and that the assets in the Client's Account shall be commingled with the assets of other customers of the Company (omnibus accounts).

15.3 The Company shall not be liable for any losses that the Client may incur due to insolvency or any other analogous proceedings or failure of the financial institute or payment service provider in which Client's funds are held. The financial institution to which the Company will process Client money may hold it in an omnibus account. Hence, in the event of the insolvency or any other analogous proceedings in relation to that financial institution, the Company may only have an unsecured claim against the financial institution on behalf of the Client, and the Client will be exposed to the risk that the money received by the Company from the financial institution is insufficient to satisfy the claims of the Client.

15.4 The Company is not obliged to pay any interest to the Client for the funds deposited. The Client hereby waives any entitlement to any such interest.

15.5 Any monetary transfers shall only be given when Company's system has debited and/or credited the funds to the relevant Account and the Company cannot guarantee how long this would take. The Company will use reasonable efforts to ensure such transfers, however the Company cannot be liable for any delays or other losses that may occur if, for instance, wrong or incomplete information has been provided.

15.6 The Client accepts that any funds shall be deposited into his/her Account on the Value Date, net of any transfer fees or other charges incurred by the Company or by the institution (or intermediary) involved in the process, that holds the funds or otherwise occur. The Company shall not be held liable for any delay, where

the cause of such delay is not within the control of the Company. Additionally, the Client acknowledges that in cases where funds deposited into his/her Account, these shall reflect the actual value of the deposited currency at the time of processing the deposit by the Company.

15.7 The Client hereby irrevocably authorizes the Company to:

- i) Credit the Client's Account for all deposits, realized Profits, dividends (in long Positions) and Overnight Financing;
- ii) Debit the Client's Account for all withdrawals, realized losses, dividends (in short positions) and Overnight Financing and Fees; and
- iii) Make any other adjustment in the Client's Account as the Company may deem necessary in its sole discretion, acting reasonably and in accordance with the terms of this Agreement.

15.8 Deposits

15.8.3 The Company has the right to refuse deposit and withdrawal operations in the cases of the email, telephone number, identity, address and/or other information provided and/or collected is not fully verified by the Company or up to date, with the requirements of such verification vested in the Company's sole discretion.

15.8.4 Third-Party Deposits

i) The Company does not accept third party payments or anonymous payments in the client Account. Payments can be made from bank accounts and/or credit/debit cards and/or e-Wallets registered under a name that matches the name of the owner of the Account registered with the Company.

The Company will not be held liable for accepting and crediting funds to a Client's Account subject to declarations or proofs which are then found to be false, falsified or in any way manipulated.

15.8.5 It is required that any Client depositing funds using any payment method shall provide the payment verification documents, requested by the Company, as a proof of Account ownership. The Company shall have the right to reject a deposit or a withdrawal of the Client if the Company is not duly satisfied with the information and/or documentation provided and/or collected.

Certain Digital or Electronic Wallets may require additional steps. If the email address does not match, the Client is required to provide the Company with a proof of account ownership within 48 hours, after the transaction is completed, by sending us a statement or a screenshot of his/her digital/e-wallet account, where the name matches the name of the account registered with the Company.

15.8.5.3 If the Client chooses to deposit via Bank Wire, the name stated in the Bank account must match the name of the Client's Account.

15.8.6 Failing to provide the proof of account ownership within 48 hours after the first transaction is completed, we reserve the right, at our sole discretion, to take all action as we see fit, including, without limitation, completely blocking access to the Company's Trading Platform, blocking and/or revoking your Access Codes and/or terminating your Account. Under these circumstances, we reserve the right to seize any profits and/or revenues generated directly or indirectly by exercising any such prohibited trading activity and we shall be entitled to inform any interested third parties of your breach of this clause; any active orders associated with the same fraudulent credit card and/or any other payment method of the Account will also be cancelled immediately; we have, and will continue to develop any tools necessary to identify credit/debit card and any other payment method fraud; any dispute arising from such fraudulent activity will be resolved by us in our sole and absolute discretion, in the manner we deem to be the fairest to all concerned; that decision shall be final and/or binding on all participants; no correspondence will be entered into.

15.9 Refunds and Withdrawals

15.9.1 The Client agrees that all refunds and withdrawals shall be processed to the same source, via the same payment method and remitter used to conduct the initial deposit, however if the payment method used initially by the Client to make a deposit is no longer in use, the Company reserves the right to request additional documentation and information from the Client in order to proceed with the said refund or withdrawal.

In addition, we will pursue civil legal action in your local jurisdiction seeking any loss of income related to the fraud, including business, legal fees, research costs, employee down time and loss of revenues.

15.12.3 We employ advanced risk modelling to detect fraudulent transaction clues across our Services. Fraudulent transactions are immediately cancelled after being detected. Any active Orders associated with the same fraudulent credit card/and or any other payment method will also be cancelled immediately. We also actively leverage external, cross-industry resources --such as worldwide fraud blacklists --to prevent fraudulent users from accessing the Company's Trading Platform in the first place.

15.12.4 We consider credit card and/or any other payment method charge backs to be fraudulent if you make no reasonable effort to work with us to resolve any problems with your deposit. All frivolous chargebacks not only cost our employees time away from our usual and customary matters of conducting normal business, but also cost us money, therefore:

i) If we determine that a deposit is high-risk or does not comply with our Compliance and Risk Policies, the deposit will immediately be cancelled and the funds will immediately be refunded to the credit card and/or other payment method from which the deposit was initially made. Furthermore, in such instances, we reserve the right, at our sole discretion, to close any and all of your Account(s) and Trading Account (s) with us immediately. Any active Orders associated with the same fraudulent credit card and/or other payment method related to the Account will also be cancelled immediately.

In the event that you do not win the charge back argument, you agree to charge the blocked amount of USD150 to your credit card or the other payment method used, which will represent the "research

and administrative processing fee” for our time responding to the matter. You hereby authorize us to charge this amount to your credit card other payment provider. If this charge is rejected, we will pursue legal action to recoup losses for our time associated with responding to the charge back in addition to any other fees explained above. You agree to reimburse us or any Representative we may appoint for any legal expenses your actions may make us incur.

iii) Furthermore, in such instances, we reserve the right, at our sole discretion, to take all action as we see fit, including, without limitation, completely blocking access to the Company’s Trading Platform, blocking and/or revoking your Access Codes and/or terminating your Account. Under these circumstances, we reserve the right to seize any profits and/or revenues generated directly or indirectly by exercising any such prohibited trading activity and we shall be entitled to inform any Interested third parties of your breach of this clause; any active Orders associated with the same fraudulent credit card and/or other payment method used related to your Account will also be cancelled immediately; we have, and will continue to develop any tools necessary to identify credit/debit card and/or other payment methods fraud; any dispute arising from such fraudulent activity will be resolved by us in our sole and absolute discretion, in the manner we deem to be the fairest to all concerned; that decision shall be final and/or binding on all participants; no correspondence will be entered into.

Please note: If there is any suspicion or fraudulent activity or in case of charge-back we reserve the right to share any trading activity details, as well as ID documentation provided by the client or any other document requested, to any of our payment service providers.

15.13 Deposits and Withdrawals from a third-party payment solution provider

15.13.1 The Client acknowledges that in cases where the Client selects to proceed to any deposit and/or withdraw through a third-party payment solution provider, the Company takes no responsibility for any such transaction between the Client and the third-party solution provider. The decision of the Client to use the services of the third-party payment solution provider is exclusively and solely on the Client, therefore the Company is under no circumstances liable for any errors/defects or delays, or otherwise for failure to fulfil its obligations, to the extent that this is the result of the actions of the third-party payment provider. 16.1 Prior to trading, the Client needs to consider applicable costs, fees and charges. The Client is solely responsible for requesting clarification from the Company in relation to the above, if necessary.

16.2 The Client should note that not all charges are represented in monetary terms and may appear, for instance, in pips or points. For that reason, the Client needs to ensure that they understand the cost that the pip/points amount to.
